Series GRM Pneumatic Clamp

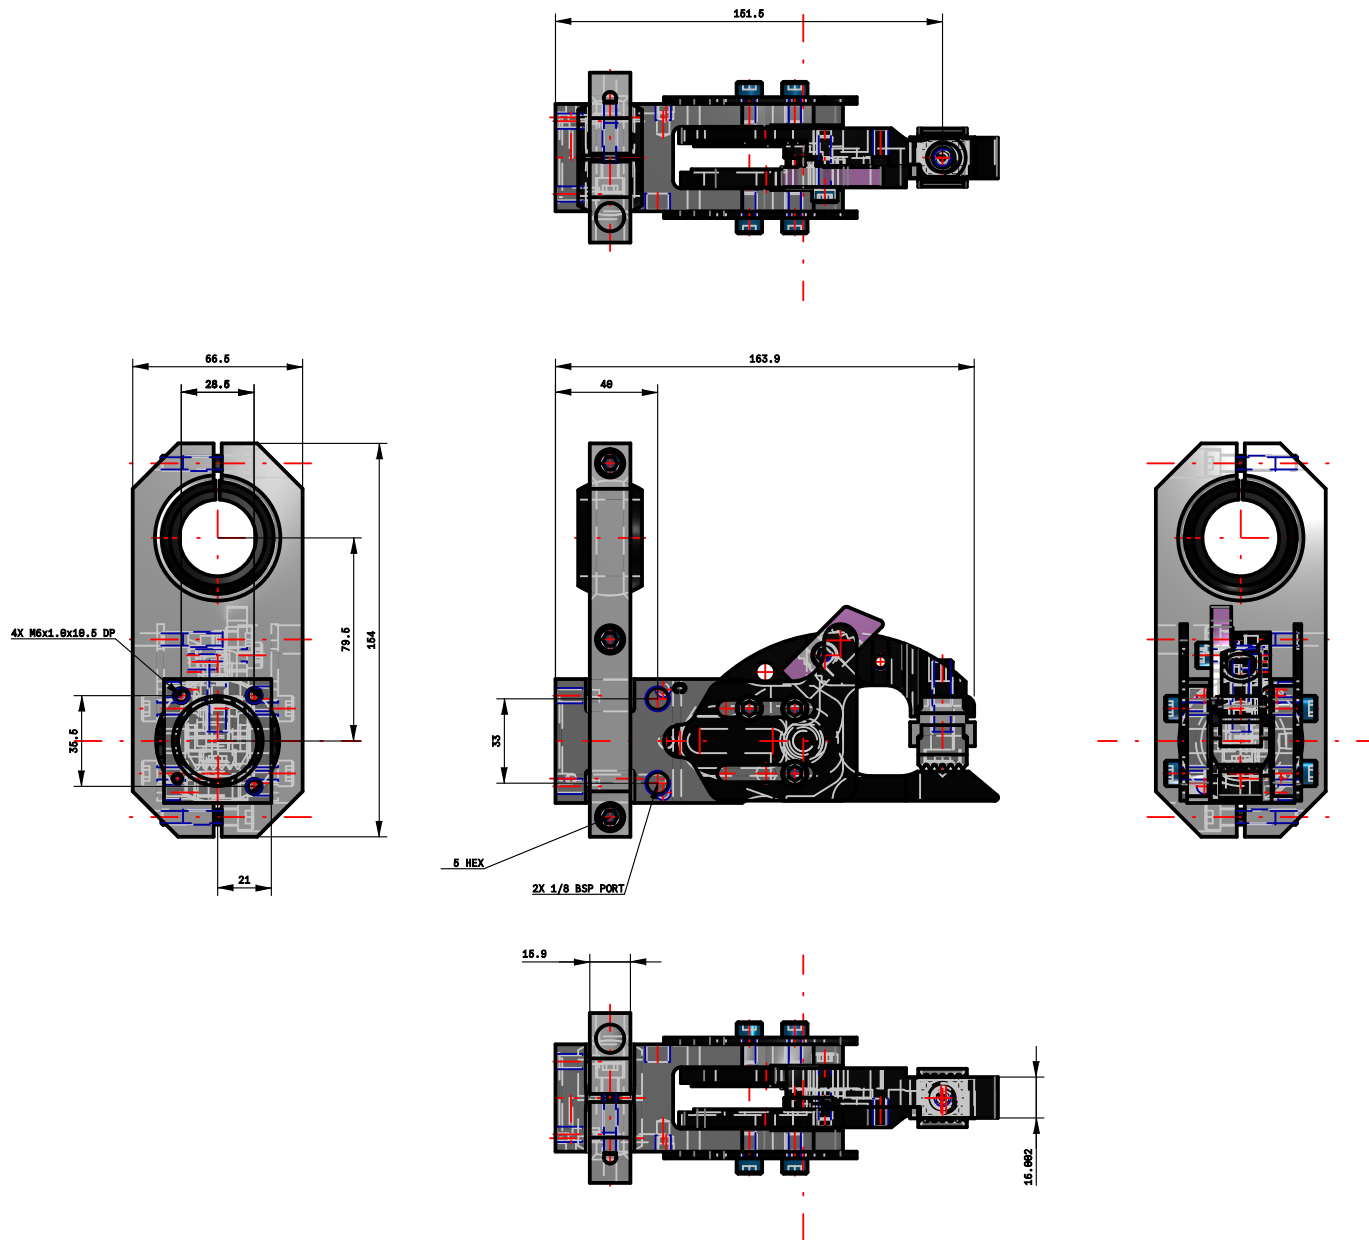

Series GRM size 2 clamp is designed specifically for handling sheet metal in stamping/fabricating press applications. A compact size makes the Series GRM size 2 clamp ideal for applications in confined work areas.

Advantages: Simple design, long life, high clamp force, six modular designed jaw tips are available.

Benefits

- Ideal for sheet metal handling. Series GRM size 2 clamp is available in 3 sizes, 13 jaw styles, and numerous jaw openings to fit a wide range of clamping applications. Featuring a simple design, long life and high clamp force, this clamp is fully field repairable in a matter of minutes using only metric hex wrenches.
- Compact envelope size and high clamp force. Series GRM size 2 clamp (design 2 and 6) generate up to 225 lb [1,000 N] of clamp force.
- Six modular designed jaw tips are offered for maximum clamping performance in a variety of applications. Additional mounting, jaw, switch and tip options are available.
- Series GRM size 2 clamp (design 2 and 6) jaws lock in the closed position ensuring part retention if air pressure is lost. Wide and deep throates accomodate difficult clamping applications.
- Available with fixed or spherical mounting brackets for side or rear mounting. Two adjustable hardened steel impact plates eliminate damage from panel impact.
